

PULSAFEEDER[®]

A Unit of IDEX Corporation

2010 Factory Training School Schedule

Technical Service Training School

March 9-March 12, 2010 (Tues-Thursday)

This class is rarely offered so be sure to sign up early! Students learn hands on pump operation and maintenance. This class has students assembling, disassembling and troubleshooting problems they may encounter on the job.

Focus: Pulsa Pro 900 • Polyfeeder
Pulsa and Pulsar • NPSH
MPC • MPC Vector
Hypo Valve • Eclipse

Technical Sales Training School

May 17-May 21, 2010 (Mon-Fri)

Sept. 13-Sept 17, 2010 (Mon-Fri)

Learn everything you need to know to confidently sell the Pulsafeeder brand in this informative course. Attendees get a full overview of how to choose a pump, fluid considerations, how to place an order, export compliance and more. This class will be offered twice this year but this popular class fills up fast. This class requires a wireless capable laptop.

Focus: Pulsa Pro 900 • Polyfeeder
Pulsa and Pulsar • NPSH
Sizing & Selection with iPass
Controllers • Basic Hands on Training
