

PULSE OF THE INDUSTRY

SEPTEMBER 2019

Greetings,

We're reaching out to invite you to join us at WEFTEC, September 23-25, at McCormick Place in Chicago. If you'd like a free expo pass, please use the link and promo code below.

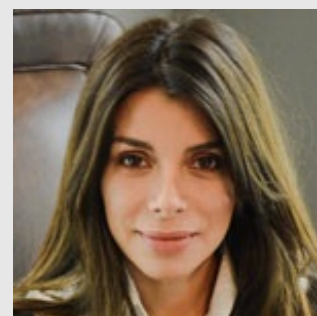

At WEFTEC, we'll be discussing the latest in chemical metering and Water & Wastewater treatment, with a specific emphasis on:

- pH control
- odor control
- coagulation & flocculation
- and disinfection applications.

Our **Eclipse Rotary Gear pumps** will be featured in the September issue of *Pumps & Systems Magazine*, discussing disinfection applications with sodium hypochlorite. The story offers a deep dive into the history of water disinfection. It identifies the strengths & weaknesses of disinfection chemicals, and it discusses the challenges that pumps need to overcome to

PulsaPro Hypo Valve

Alexandra Gonzalez Joins

effectively handle sodium hypochlorite. The story will be featured prominently in all the news stands throughout the WEFTEC venue.

A new update to our **PulsaPro Hydraulically Actuated Diaphragm pumps** will be announced at the show – with the unveiling of the new PulsaPro Hypo-Valve configuration. This new pump is specifically designed to meter Sodium Hypochlorite for water & wastewater disinfection applications. This new vapor-handling system features a uniquely sealed solenoid valve that automatically evacuates air and vapors from the re-agent head, while the pump's diaphragm de-gasses process liquid and eliminates leakage. PulsaPro Hypo-Valve Pumps are self-priming for faster and more efficient start-up, and the technology efficiently handles off-gassing chemicals like Sodium Hypochlorite with minimal maintenance and reduced downtime. Stop by the booth to check it out!

Please join us in the booth to meet our new regional sales manager, Alexandra Gonzalez. Click on the story on the right to learn more about Alexandra.

And lastly – we're proud to showcase our new 20 X 20 booth (#2022), featuring interactive demos and videos, alongside our newest pumps. We're looking forward to showing the WEFTEC crowd everything that's new at Pulsafeeder – and we hope to see you there.

If you want to meet us at WEFTEC, please visit www.WEFTEC.org/register and enter promo code **EVITE4020** to receive a free expo pass, and we'll look forward to seeing you in Chicago at the show.

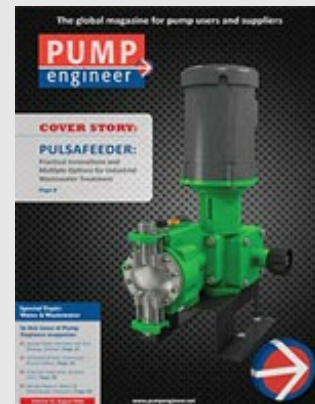

Sincerely,

The Pulsafeeder team
