Webinar: Gear Pumps in Cannabis CBD Extraction

Pulsafeeder has experienced significant growth with key manufacturers of extraction equipment in the CBD market, through the adoption of our rotary products ECO, ISOChem and Eclipse. There is still untapped potential with other CBD extractors and even the larger market of liquid separation. We want to share our experience and knowledge with you!

WHAT TO EXPECT

We will be covering topics such as:

- Market Opportunity
- What is CBD?
- Extraction Processes
- Pump Applications in Extraction
- Competition and Market Position
- Sales Resources
- Channel Partner Q&A

SPEAKERS:

- Gary DeWolf: Director of North America Distribution and OEM Sales with 25 years of Pulsafeeder experience in sales and service.

A PERFECT FIT FOR ETHANOL CBD EXTRACTION
From structure to final product, Pulsafeeder gear pumps keep your product flowing through the distillation process

Pulsafeeder
Our customer-centric sales approach, Pulsafeeder's reputation for providing the very best delivery and support after the sale, and our history of innovation and technical support have led to our success in helping our customers solve their problems.

Webinar | From structure to final product, Pulsafeeder understands what it takes to keep your product and quality. From the right equipment and hardware performance, our pumps are tested by some of the top CBD manufacturers in the equipment marketplace.

Presented by | ISOChem and Eco gear pumps are the go-to pumps for Ethanol Extraction. From the distillation and filtration.

	ISOChem	ECO
Throughput	5/5	5/5
Flow	5/5	5/5
Temperature	5/5	5/5
Flexibility	5/5	5/5
Tri-Camp Fit/Gap	5/5	5/5
CBD Extraction Process	5/5	5/5
