

# WEBINAR RECAP

5/19/2020

## Webinar Recap: Gear Pumps in Cannabis CBD Extraction

Thank you everyone for listening in on this week's webinar discussing the use of Pulsafeeder's rotary products – ECO, ISOChem and Eclipse – in the CBD extraction market. We are experiencing significant growth with key manufacturers of extraction equipment in the CBD market, and tremendous untapped potential exists with other CBD extractors and larger markets including liquid separation. This week's webinar shared our experience, and identified a few opportunities that may interest you.

### WHAT WE COVERED

- Market Opportunity
- What is CBD?
- Extraction Processes
- Pump Applications in Extraction
- Competition and Market Position
- Sales Resources
- Channel Partner Q&A

### A Perfect Fit for Ethanol CBD Extraction

**Metering and Transfer Pumps for CBD Extraction**  
ISOChem, Eclipse, ECO, Pulsafeeder

**KEY FEATURES**  
• Precision  
• Reliability  
• Availability

**KEY BENEFITS**  
• Consistency  
• Durability

**The Right Pumps for the Job:**  
Pulsafeeder's ISOChem, Eclipse and ECO gear pumps are designed for the unique challenges of ethanol CBD extraction. They offer the right flow characteristics, pressure and temperature ranges for the process, and are built to last. ISOChem is ideal for high flow, high pressure applications, while Eclipse and ECO are perfect for lower flow, lower pressure applications. Pulsafeeder's ISOChem, Eclipse and ECO gear pumps are built to last, offering a long service life and low maintenance costs.

**Addressing the Pump Requirements for CBD Extraction:**  
• Precision: ISOChem, Eclipse and ECO gear pumps are built to last, offering a long service life and low maintenance costs.  
• Reliability: Pulsafeeder's ISOChem, Eclipse and ECO gear pumps are built to last, offering a long service life and low maintenance costs.  
• Availability: Pulsafeeder's ISOChem, Eclipse and ECO gear pumps are built to last, offering a long service life and low maintenance costs.

When it comes to CBD extraction, the right pump makes a difference. Pulsafeeder's ISOChem, Eclipse and ECO gear pumps are built to last, offering a long service life and low maintenance costs.
