

Thank you for taking the time to meet with us at last week's MJBizCon event in Las Vegas.

It was a great week. We enjoyed speaking with you, and so many others in the industry to learn more about how our pumps are used in ethanol extraction processes. We've gained an improved understanding of your applications, and we look forward to keeping in touch, to help you address your needs.

You can find literature, and additional information on our pumps here:

ISOChem Product Literature

Pulsafeeder Product Literature

We're pleased to announce the fact that our ISOChem pump won an industry award this month.

Modern Pumping Today Magazine named the pump to its prestigious 2019 Top Products feature – given the tremendous success the pump has achieved in botanical extraction applications this past year. Click on the thumbnails for more details.

Once again, it was a pleasure meeting you last week. If you have any questions, or need any information, feel free to contact Jeff Martin at JSMartin@idexcorp.com.

On behalf of everyone at Pulsafeeder, we wish you and your families Happy Holidays and a Happy New Year ahead!
